

SYSTEM, DEVICE AND METHOD  
FOR PROVIDING PROXIMATE ADDRESSES

Abstract of the Disclosure

5 Systems, devices and methods are provided to display or otherwise provide  
addresses in proximity to the device, and to periodically update the addresses as the  
navigational aid device is transported along a road. The device is adapted to be  
transported on a road. The device includes a processor and a memory adapted to  
communicate with the processor. The processor and the memory are adapted to  
10 cooperate to provide an address that is proximate to the device. Another aspect  
includes a method. According to one method embodiment, an address proximate to  
a navigational aid device is estimated and displayed on the navigational aid device.  
Other aspects are provided herein.
